@mingliu68

@mingliu68

A self-motivated, self-taught web developer with finance and entrepreneurial background, who is passionate about developing applications that solve user problems and learning new technologies. A creative with an eye for detail who truly lives by her motto "If you put your mind to it, you can accomplish anything."

EXPERIENCE

Mobile App Developer / Intoxic8 Studio, LLC / intoxic8studio.com **2011 - Present**

Developed Road Racer, Mighty Chicken and Friends, Skull Valley, Chinese Poker Pro, eBay Seller Calculator and Perfect10+ for iOS.

- Conceptualize, prototype and develop iOS apps
- Design and create 2D and 3D game assets, including 3D modeling, texturing and animation
- Develop dynamic React Native utility mobile app that consumed data from an Express.js backend

Web & Mobile App Developer / Brookside Media & Co. / brooksidemediaco.com **2004 - Present**

Full stack web developer responsible for end-to-end web application development. Consult and communicate with clients to outline website goals, illustrate wireframe and site functionality. Bring website projects to life from concept through completion, using a variety of web development languages, frameworks and tools.

- Develop single page applications using React.js with an Express.js backend on a PostgreSQL database
- Develop custom WordPress sites with custom JavaScript and PHP modules
- Develop custom eCommerce sites with WooCommerce and PrestaShop

Mandarin Chinese Tutor / Private Clients **2018 - 2020**

Providing private Mandarin Chinese instruction for children of preschool age. Creating customized lesson plans and activities tailored to each child's learning style, strength and attention span.

Managing Partner / BITNY21.com **2013 - 2015**

Researched, sourced and imported Bitcoin miner components. Oversaw the entire purchasing and importing process. Followed up with both domestic and international leads.
